

28 December 1959

Mr. Leo M. Goodman
Chief, Division of Intelligence
Collection and Distribution
Department of State
Washington 25, D. C.

Dear Leo:

In my letter of 8 December 1959, I made reference to the fact that both the Library of Congress and the National Science Foundation had indicated an interest in sending delegates to the proposed Publications Officers Conference in Cairo. I have received further confirmation of this intent.

Dr. Burton W. Adkinson, Head of the Science Information Service at the National Science Foundation, has authorized Mr. Scott Adams to attend the proposed Cairo conference on behalf of the National Science Foundation. The Library of Congress continues to be very much interested in sending a delegate.

I hope we may have an early decision by the Department as to whether the conference is to be held to facilitate planning by those of us who would attend.

25X1A9a Sincerely,

Chairman, Committee on Procurement
of
Foreign Publications
